

Memorandum

Date: December 3, 2013

Agenda Item No. 8(O)(1)

To: Honorable Chairwoman Rebeca Sosa
and Members, Board of County Commissioners

From: Carlos A. Gimenez
Mayor

Subject: Resolution authorizing execution of Joint Funding Agreement No. 14GGESMC0000109 between Miami-Dade County and the U.S. Geological Survey for Water Resources Investigations retroactive to October 1, 2013 through September 30, 2018

RECOMMENDATION

It is recommended that the Board of County Commissioners (Board) approve the attached resolution authorizing the execution of Joint Funding Agreement No. 14GGESMC0000109 between Miami-Dade County through the Water and Sewer Department (WASD) and the U.S. Geological Survey retroactive to October 1, 2013 through September 30, 2018.

The delay in presenting this Joint Funding Agreement to the Board is due to the different reviews the agreement had to undergo as it has various funding sources.

SCOPE

This Joint Funding Agreement provides services of countywide significance as it includes monitoring groundwater water levels, water quality and salt water intrusion throughout the County.

FISCAL IMPACT/FUNDING SOURCE

The fiscal impact to the County totals \$7,208,160.00, of which \$5,580,526.00 will be funded by WASD's Operating Revenues: Water Fund EW101, and \$1,627,634.00 will be funded by the Department of Regulatory and Economic Resources (RER) Proprietary Revenues Fund: GF030, Subfund 039. The U.S. Geological Survey will contribute \$1,478,875.00, making the total dollar amount of this agreement \$8,687,035.00.

TRACK RECORD/MONITOR

WASD's Deputy Director for Regulatory Compliance and Capital Improvements, Douglas L. Yoder, will oversee the implementation of this agreement.

BACKGROUND

The water resources investigations authorized by this Joint Funding Agreement are required to comply with the County's 20-Year Water Use Permit. The investigations conducted include equipment maintenance, and data collection relating to groundwater elevations, water quality and saltwater intrusion. In the past, this Joint Funding Agreement was submitted to the Board on a yearly basis for approval, however, in order to secure future funding from the U.S. Geological Survey, the County and the U.S. Geological Survey changed the term of this joint funding agreement from one (1) year to five (5) years.

The County has had water resources investigation agreements with the U.S. Geological Survey for more than 30 years. The information provided by these monitoring services is used by WASD and RER. The data collected by WASD related to water quality and quantity is used to ensure an adequate and safe

drinking water supply. The data collected by RER is related to water quality in public and private water wells.

The services funded by WASD include the operation and maintenance of sixty-three (63) water level monitoring wells, thirty-five (35) salt water interface monitoring stations, the operation and maintenance of seven (7) rain gauge instruments, the collection of additional data during droughts, and the operation of a website which interacts with the most recent data collected.

The services funded by RER include the operation and maintenance of forty (40) water level recording stations, one canal stage meter and rain gauge flow instrumentation, and twenty-six (26) saltwater interface monitoring stations.

This agreement will terminate on September 30, 2018.
